

Customers will be lining up for this great checkout experience

The Vantage Queuing Lane has everything you need to merchandise, scan product, bag, and accept payment. Use it by itself or in-line with others to give your customers the best checkout experience possible. The Vantage Queuing Lane features:

- Affordable, durable metal design offered in a variety of colors
- Optional customer-facing merchandising area
- Available in left-hand and right-hand versions
- Top options of stainless steel, laminate, and solid surface
- Cutouts for scanner, POS mounts, and power pole
- Options for doors, drawers, and shelves

Pan-Oston's Vantage Queuing Lane is a great solution for any retailer looking to implement a queuing system in their store. Many retailers are finding that queuing works best for their stores for a variety of reasons:

- To save space at the front-end
- To increase customer satisfaction by alleviating the stress when a customer is angered by choosing the slow lane
- To eliminate "sweethearting"
- To speed up the process of moving customers through the checkouts
- Cashier productivity and happiness is improved because the workload is shared evenly

Pan-Oston[™]
great experience
