Counters that invite your cus

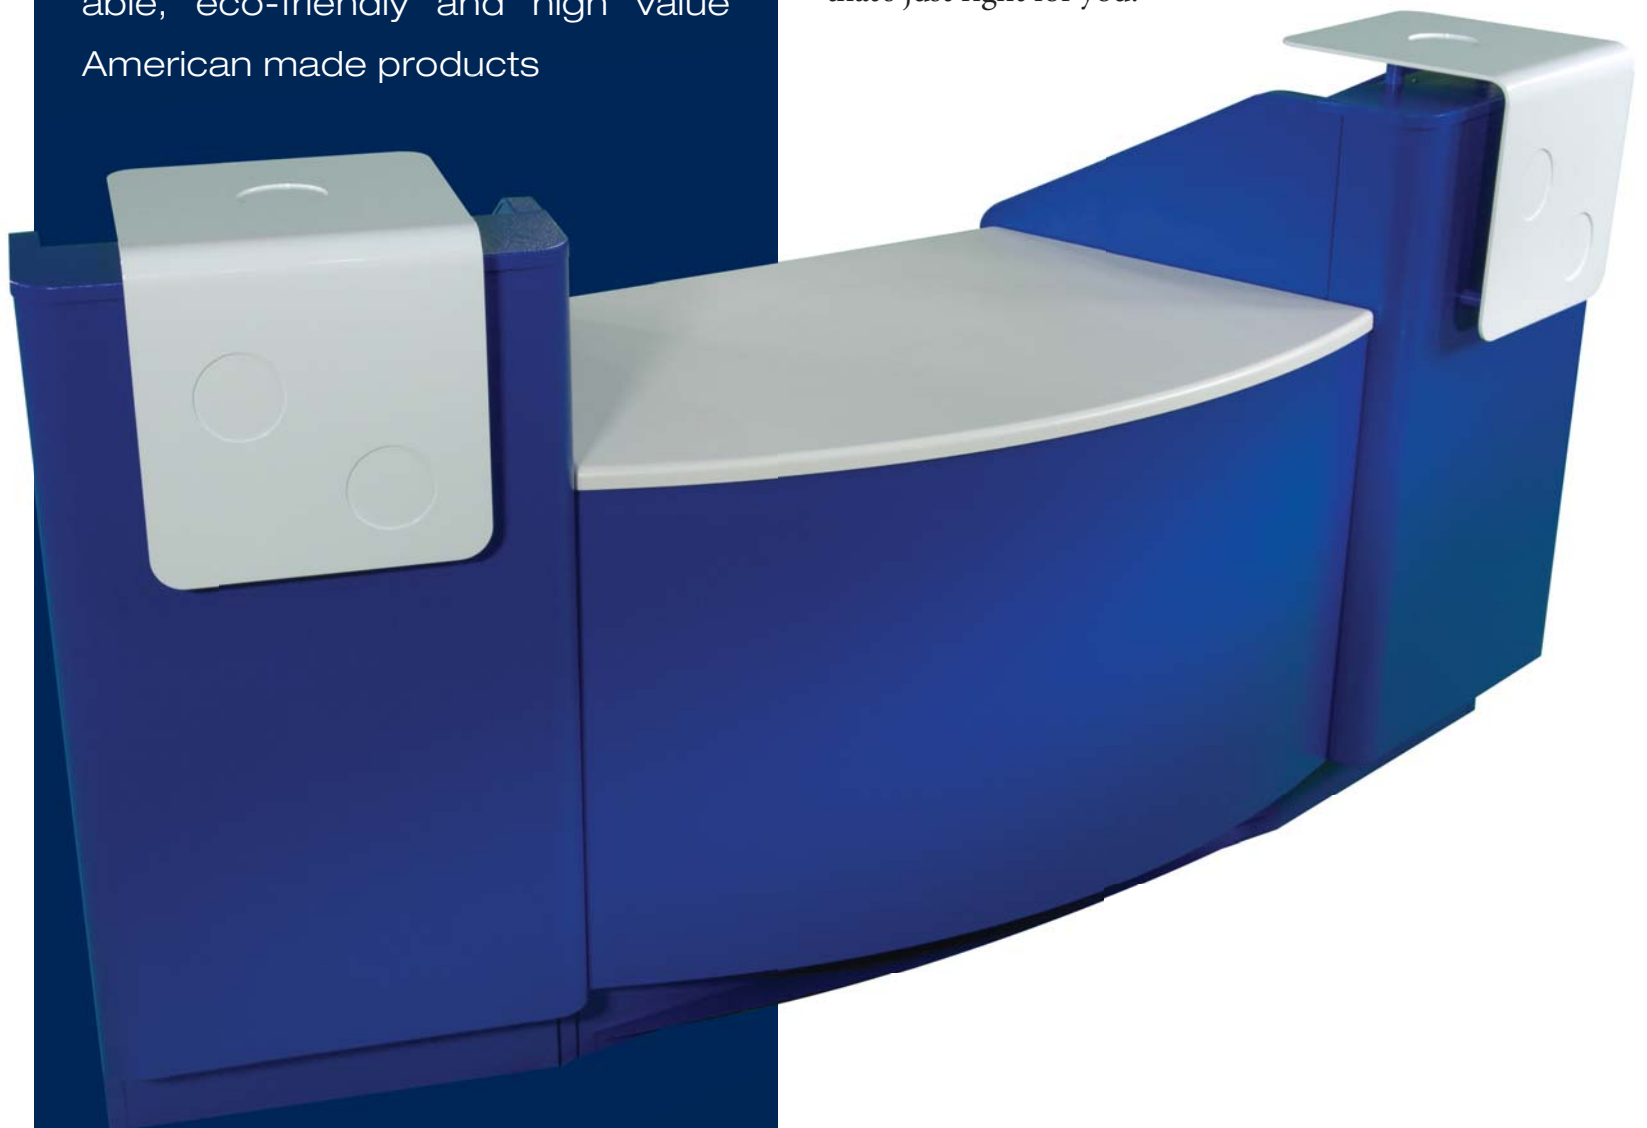

For over 40 years Pan-Oston has been an industry-leading designer, developer and manufacturer of wood and metal checkout, display and merchandising fixtures for supermarkets, retail stores, department stores, convenience stores and quick-serve restaurants. Pan-Oston is proud to deliver superior quality, well-manufactured, affordable, eco-friendly and high value American made products

All counters are not create

At the heart of every Pan-Oston wood or metal counter system is industry leading manufacturing technology and time-tested American craftsmanship. Our two modern and efficient manufacturing facilities are designed around state-of-the-art equipment like AutoCAD, CNC routers and molders, metal laser cutting, and robotic welding.

Our eco-friendly manufacturing process ensures that we are reducing energy consumption, minimizing waste and creating a healthier environment. Pan-Oston adheres to LEED guidelines making your project eligible for LEED points.

There is an affordable Pan-Oston counter system solution that's just right for you.

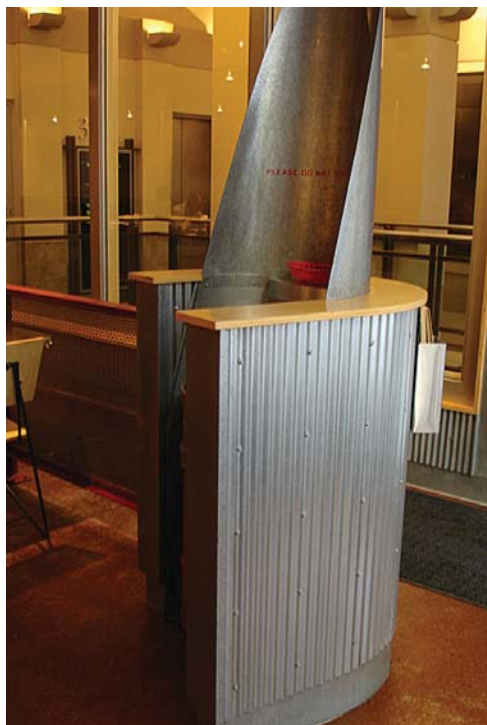

Customers to step-up and order

Equal and Pan-Oston sets the industry standard.

- **Made-to-order** counters designed to individual client specifications.
- **C-Flex** counters are designed with a patented “sub-frame” system. This lightweight, flexible and extremely rugged counter system supports virtually any counter configuration from straight counters to food service, to beverage counters, or even personalized to meet all your specific operational, menu and design requirements. C-Flex is easy to remodel, upgrade or reconfigure and counter tops and surfaces are available in stainless steel, laminate or a wide range of solid surfaces.
- **C-Series** counters are modular metal or wood units. With fully interchangeable components you can select the material that works best for your store or mix-and match components for a specific application. C-Series counters are available in laminates, solid wood, wood veneers, kydex, stainless steel, painted steel and solid surface finishes.
