

Our Green Commitment

At Pan-Oston, environmental stewardship is an integral component of our corporate values. High efficiency lighting systems, recycled shipping materials and elimination of water discharge from cleaning operations are just a few examples of our green commitment.

We follow and comply with LEED guidelines making your project eligible for LEED points. Our eco-friendly manufacturing process and products ensures that we are reducing energy consumption, minimizing waste and creating a healthier environment for our employees. At Pan-Oston we are committed to:

- Formaldehyde free products
- Recycled counter and glass surfaces
- Solvent free paint emissions
- Bumper & trim content made from recycled materials
- Recycling steel, stainless, corrugated, and paper
- Water-based glues
- Utilizing local and regional green suppliers
