

Customer and employee sign-ups have never been easier

Our Portable Information Kiosk is small enough to maneuver through the store and large enough for customers to fill out and drop off forms easily. No matter your purpose, customers can meet with your representative across the desk if needed and have a hard surface to fill out forms. Then, the forms are immediately dropped into a slot and secured behind lock and key. When not in use, the desk flips down and the leg stores inside the unit. Use the kiosk in a variety of ways:

- Flu Shots
- Financial Planning
- Insurance Sign-Up
- Back-to-School Vaccinations
- Marketing Opportunities
- Job Applicants
- Giveaway/Sweepstakes Entries
- Blood Pressure Screenings
- Tax Season
- Loyalty/Rewards Programs
- Job Fairs

Give us a call today to simplify your customer and employee sign-ups!
